With over 30 years of experience in the technology industry my expertise includes managing programs and projects, gathering and analyzing business requirements and building teams to develop business solutions. My focus is on delivery of high quality outcomes, on time and on budget.

My technology consulting experience has allowed me to provide professional level services in feasibility analysis, business case development and full lifecycle project management. With a strong background in consulting to the public and private sector I execute projects for medium to large organizations. I work closely with program and operational management and build relationships with all stakeholders to ensure business objectives are achieved with an acceptable level of risk.
